DESIGN BETTER PLASTIC PARTS

Sign up for FREE Autodesk Moldflow Certification
at ANTEC 2011 on Thursday, 5/5 at
Boston Marriott Copley Center, Boston MA

Autodesk will be exhibiting at ANTEC 2011 and will also be offering free Certification exams. This is a tremendous opportunity to accelerate your professional development, improve productivity, and enhance your professional credibility. Both Associate and Professional certification levels test for a high level of knowledge, not only of using Moldflow, but injection molding, part design and mold design.

Associate Certification

The class Learning **Autodesk Moldflow Insight Basic**. Attending this class is recommended preparation for the exam. Topics on the exam are related to filling and packing and include:

- Analysis workflow
- Feed systems
- Gate location design guidelines
- General product design
- General tool design
- Injection molding process
- Materials
- Model preparation
- Moldflow design principles
- Molding window
- Results interpretation

Professional Certification

Autodesk Moldflow Insight users must be Associate certified. The Professional exam is based on the classes *Productivity with Autodesk Moldflow Insight* and *Autodesk Moldflow Insight Performance*. Topics are related to filling, packing, cooling, warpage, and include:

- Anchor plane setup
- Cooling analyses & results
- DOE
- Filling analyses
- Gate location options
- Modeling
- Molding Window
- Packing Analyses
- Results: Cooling, Flow, Warpage
